DETAILED ACTION

Claim Rejections - 35 USC § 102

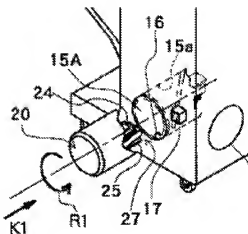

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Waratani et al. (JP 09267967).

With respect to claim 1, Waratani *et al.* discloses a mounting arrangement for attaching an electrically powered stapler 20 mechanically and electrically to a photocopying equipment 1 including a mechanical mounting device for connecting the stapler 20 to the photocopying equipment 1, which mounting device comprises a first attachment piece (the outer surface walls of the stapler 20) connected to the stapler and a second attachment piece 15A connected to the photocopying equipment, and an electrical mounting device 17,26 (see paragraphs [0054] and [0056]) for connecting the stapler electrically to a power supply, which mounting devices and comprising an integrated unit as shown below in the Figure taken from Figure 1 of Waratani *et al.*:

With respect to claim 4, the electrical mounting device comprises a first connecting part 26 attached to the first mechanical attachment piece (the outer surface walls of stapler 20) and a second connecting part 17 connected to the second mechanical attachment piece 15A; the first and second connecting parts being joined to form an electrical connection when the attachment pieces are assembled together (see paragraph [0056]).

Allowable Subject Matter

3. Claims 2-3 and 5-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. The following is a statement of reasons for the indication of allowable subject matter: Claims 2-3 and 5-6 have been indicated as containing allowable subject matter primarily for the guide arrangement consisting of guide rails integral with one of the attachment pieces and guide runners integral with the other of attachment piece.

Art Unit: 2854

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Mochizuki and Isobe are cited to show other examples of a mount for a stapler in photocopying equipment.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel J. Colilla whose telephone number is 571-272-2157. The examiner can normally be reached on M-F 7:30-5:00.
